

# Finding new solutions to green growth

## Case Greennovation Camp

The purpose of the Greennovation Camp is to offer an arena where green innovations could grow. The camp connects people from the private, public and research sectors as well as NGOs from different countries and regions to learn, develop ideas and co-operate. (Green + Innovation = Greennovation)

### What is needed to organize the Camp?

1. A hot theme or topic to dive into

2. Refreshments for the body and soul

3. Inspiring expert keynotes

4. A digital or physical platform

5. Interactive elements, like workshopping or prototyping

### What new is enabled?

- Ideas to tackle a challenge
- Information from research and experts to practitioners
- Contacts, networks and co-operation
- Ways of collaborating in the future
